## EDUCATION

### University Hmk, Syria-Damasucs — *bachelor of computer science*

1/9/2021 - 6/6/ 2022

I studied at Damascus University in the Department of Applied College for a year and a half and then traveled to Egypt,

I learned at university:

- html and css.
- Mysql and SQL Server.
- C# ,little of js

## PROJECTS

### Solar Valley — *work by (php-laravel)*

Solar Valley is one of the branches of Al-Marwa Renewable Energy Company in the UAE. We are interested in supplying solar energy products in the Middle East and North Africa region, in order to fulfill the desire of our customers in this region

<https://solarvalleypv.com>

### Makasip — *work by (php-laravel)*

<https://makasip.com>

### Sham Food — *work by (Python)*

When I was working as an accountant in this restaurant, people used to call a lot to inquire about the prices of food and what the ingredients of this sandwich were, and I was talking to the customer for about twenty minutes.

,Php, Laravel, python,

Django,

C#, Sql server, MySQL, Ajax ,

,Jquery, vue, Linux, wsl

Postgresql , Git, Github,

Docker, Nginx

## LANGUAGES

Arabic: Native speaker

English: Beginner

It is from this principle that I came up with the idea for this bot and suggested it to my boss Work and like it ٥

This bot helped :

- Reduce communications from customers.
- Knowing the customers' locations and phone numbers.
- Report complaints.
- Knowing the customer about the food he ordered.
